### About Pre-O from a narrow-gauge train

The narrow-gauge train travels at a speed of about 8-10 km / h

The participant is sitting in train and working with a map.

When a participant sees the control flag in the nature, the participant identifies it.

Each task has one control flag. So, the answer can be only one of two - "A" or "Z".

### About TempO + Photo-O

The participant goes to TempO stations along a route as shown in the route map.

There are several photos on the other side of the route map.

Each photo has 1 or more questions.

Answers to questions can be found on the route that is specified on the map.
